

INFORMATION FOR PARENTS

What is 1decision?

The 1decision resources have been developed over the past nine years and were created by specialists working together with schools, and most importantly, children. All the materials have received the Quality Mark from the PSHE Association, which means that schools and parents can be assured that they include the very best practice as part of a whole-school approach to keeping children safe, happy, and healthy.

The 1decision platform has been designed to be interactive, fun, and engaging for children. At its core are a series of short film clips with alternative endings, which encourage children to consider the consequences of different decisions.

Our resources allow children to develop essential skills, knowledge, and vocabulary to manage different influences and pressures in their lives and to make safe and informed choices. Teachers and children use these films alongside pupil workbooks and on-screen lesson guides to explore various topics in a safe and supportive learning environment.

How will my child's school use the 1decision resources?

The 1decision platform is split into modules, which are aimed at two different age-groups; 5 to 8-year olds and 8 to 11-year olds. We know that every school is different and although we provide suggested delivery advice for schools, we encourage each school to think about the needs of their communities and pupils and use the 1decision lessons in the most suitable way.

What themes does 1decision cover?

At 1decision, we are constantly updating and developing our resources to meet the changing needs of schools and children.

Our resources have recently been updated to support the new statutory teaching guidance from the Department for Education for Health Education and Relationship Education in primary schools. This guidance will be compulsory in all primary schools from September 2020.

Our modules cover a variety of topics, from staying safe, staying healthy, being responsible, relationships, managing feelings and emotions and more. The modules are all designed to complement each other and build children's understanding in an age-appropriate way.

Our portal for 5-8-year-olds provides introductions to various topics, these help teachers and children to create the 'building blocks' to progress further with these topics in our 8-11 portal.

You can find out more about the learning modules by visiting the website below.
